A respected & competent person from the past (you may recognise him?)

Now - we have to consider so much more, e.g:
Competent Person & Formal Training; Guardrails & Toeboards;
PPE; Safety Harness & fall arrest; Ladder secure and extending above the platform.

Risk Assessment, Method Statement & Manual Handling (to name some of the requirements).

Ability can answer your access needs for work at height. From manufacturing the equipment to delivering Certificated Training Courses to ensure your compliance with the Statutory Instruments, Regulations & Standards
